CONTAGIOUS

DISEASES ARE PREVALENT ALL OVER THE WORLD.

I am a native of Engiand, and while I was in that country I contracted a terrible blood-poison, and for two years was under treatment as an out-door patient at Not-tingham Hospital, Engiand, but was not cured. I suffered the most agonizing pains in my bones, and was covered with sores all over my body and limbs. I had vertigo and deafness, with partial loss of sight, severe pains in my head and eyes, etc., which nearly ran me crazy. I lost all hope in that country and sailed for America, and was treated at Roosevelt in this city, as well as by a prominent physician in New York having no connection with the hospitals.

I saw the advertisement of Swin's Specific, and I determined to give it a trial as a last resert. I had given up all hope of being cured, as I had gone through the hands of the best medical men in Nottingham and New York. I took six bottles of S. S. S., and I can say with great joy that they have cured me entirely. I am as sound and well as I ever was in my life.

Is the life and he is wise who remembers it. But in March of last year (1884) I contracted blood-poison, and being in Savannah, G., at the time, I went into the hospital there for treatment. I suffered very much from rheumatism at the same time. I did not get well under the treatment there, nor was I cured by any of the usual means. I have now taken seven bottles of Swiff's Specific, and am sound and well. It drove the poison out through boils on the skin.

MEETING OF THE LEE MONUMENT AS SOCIATION YESTERDAY. The Site for the Statue; Shall It be Gamble's Hill or Allen's Field !- The

Design, &c.

The Board of Managers of Lee Monument Association, consisting of Gov-ernor Lee, Auditor Marye, Treasurer Harman, Colonel Archer Anderson, Miss Sarah Handolph, and Miss Nichelas, met at the Governor's Mansion yes-terday morning at half-past 1) o'clock. The meeting was called to decide upon the design and site for the proposed Lee monument. At 2 o'clock the Board adjourned, without definite action on either of the points considered. The site, however, will either be the Allan lot or Gamble's Hill

lot or Gamble's Hill.

The Board will meet in a few days again, when it is expected these im-portant questions will be decided. The "Allen lot" is in reality a very

large field at the west end of Franklin street. The Virginia base-ball grounds are in one corner of the field. Some time in the not-remote future Franklin street will be extended through this property, and those who favor this site propose that it shall be widened so as to make a grand boulevard, with room for rows of trees down the middle, &c., and to intersect Reservoir avenue in the It is understood that the owner will give two acres for grounds around the monument. The city is rapidly growing in this direction, and property is steadily advancing in price in all that section. The ground is level.

Gamble's Hill is at the south end of Second, Third, Fourth, and Fifth It is already a public park, and one of the loveliest in the city. though not much money has been spen upon it. It is lofty ground, falling in terraces down to the canal. The plateau covers several acres, and a monu ment put there would be a landmark

for miles and miles.

Gamble's Hill faces the Tredegar Works, and here comes in much of the opposition to this place as a site, for it known that the smoke from the Tradegar furnaces is blown by south winds upon the hill, and it is asserted that it would soon tarnish the granftework of the monument, and perhaps discolor the bronze also. On this subject, however, Major E. T. D. Myers. than whom no man here is better entitled to speak, said in an interview published in the Dispatch April 4th: "I do not regard the proximity of

the Tredegar furnaces as a substantial objection. The improved methods of firing have already greatly reduced, and will undoubtedly still further di-minish, the emission of smoke from their chimneys.

HEXRICO COUNTY NEWS. Action of the Grand Jury Yesterday Row at a Ball.

The special grand jury of the Henrice County Court was in session again yesterday, completed its work, and was adjourned for the term. True bills of indictment were found against O. M. McEvoy for selling liquor on Sunday, and John Jones and Morgan Jones for burning a barn in 1882 to obtain the insurance thereon. The two Joneses

have not been arrested. In the case of Tyler Bowling, charged with burning the barn of E. H. Card-well, in Varina district, the jury returned not a true bill. The jury presented the following paper to the court:

GRAND JURY ROOM,) HENRICO CO. COURTHOUSE, June 18, 1886.

Hon. E. C. Minor, Judge Henrico County Court :

Sir,-In compliance with the request of Mr. John K. Fussell and other citizens of Varina magisterial district, we would very respectfully direct your attention to the utter disregard of the law governing railroads at their crossings of the county roads in neglecting or refusing to give any note of warning. either by sounding a whistle or ringing a bell, thereby greatly endangering the lives and property of said citizens. Hoping that your Honor will do what essary to protect the interest of said citizens, we subscribe ourselves your obedient servants.

ROW AT A BALL.

There was a ball given in Henrico county last Monday night at Red Men's Hall on the Charles City road, about six miles from the city, which was largely attended. Everything passed off smoothly until several men who were under th influence of liquor got upon the floor and interrupted the dancing. An effort was made to put them out, when a general fight ensued. Several persons wer knocked down, and pistols were drawn, but not used. The intruders were finally ejected and the festivities re-

Thursday a warrant was sworn out against William Donnolly and James Roach, charging them with unlawfully, violently, and tumultuously, with di vers other persons, assembling together to disturb the public peace, and being so assembled, did assault James E. Wade with a pistol, and attempted to shoot said Wade, with intent to maim, disfigure, and kill. This warrant wa issued by a magistrate of the county, but the accused, when arrested, were taken before a justice of the peace in Richmond and bailed for their appearance before a magistrate at the count court-house yesterday. They appeared at the appointed time, and the case was continued until Monday next.

The store of Mr. D. A. Kuyk, at Atlee's Station, Chesapeake and Ohio road, was robbed on the 17th of between eight and twelve dollars and a new coat valued at five dollars. The culprits were discovered and chased into Chickahominy swamp, where they remained for over three hours. While making for Richmond they were caught and lodged in Hanover jail. They gave their names as Eddie Harris, Willie Winfree, and Willie Taylor (all colored). Winfree, and Willie Taylor (all colored).

Thompson had \$1.57 in his shoes. Harris had on two good coats and vests. He hails from Washington. He said there was six dollars in the drawer, but he didn't get any of it.

Wound on the neck, and numerous bruises, Smith was uninjured. No broken bones could be found.

Crime-Examination Continued. A colored woman named Sarah Butcher was before the Police Court yesterday morning, charged with unlawfully and feloniously breaking and entering in the night-time the store of Weisiger & Tiffany, successors to O. F. Weisiger & Co., with intent to commit larceny, and stealing therefrom clothing of the value of \$75. The robbery was committed between the time of closing Saturday evening and opening Monday urday evening and opening Monday morning—probably some time during Sunday night. Sergeant Hall, who is working up the case, asked that the examination be postponed until next Monday to await expected developments, which was done.

The store which was broken into is

situated on the southeast corner of Governor street and Tobacco alley, fronting on the former and extending back along the south side of the latter, and has a side or back entrance on the alley. The door to this entrance is barred and as usual when the store was closed Saturday evening. When Mr. Wm. Wei-siger arrived at the store Monday mornsiger arrived at the store Monday morn-ing and entered the office, he found a box of envelopes which had been left on the desk Saturday night knocked down and scattered on the floor, and one of the desk drawers, in which unimportant papers are kept, pulled half-way out and the contents all stirred up. This aroused his suspi-cions, and he at once concluded that something had gone wrong and immediately began an investigation and examination of the premises. Saturday evening a \$20 suit of clothes had been gotten out ready to ship, and was laid on a trunk in the rear of the store near the door opening on the alley. This was gene. Upon further examination was gene. Upon further examination several other pieces of clothing were missed, and it is impossible without taking an inventory to tell what was taken, as there was a large stock already on hand, to which a full supply of fall and winter goods were being

In each story of the building there are four or five windows opening on Tobacco alley. On the second floor one of these—the back one—had two panes of glass broken, and pieces of paste-board nailed over them. Upon going up stairs these pieces were found to have been pushed off, and as a ladder was found lying in the alley, it is supposed that an entrance was effected through this window. The door on the ground-floor, which opens on the alley, was found open, and it is supposed that the person or persons opened this and thus went out. It was at first thought that the porter had left this door open Saturday night, but the evi-dence is conclusive that such was not the case. There are two iron safes in the office, both of which were securely locked. It is the opinion of the firm that the thieves were in search of money instead of clothing, but they were

sadly disappointed. As soon as the robbery was discovered, the fact was communicated to work up. The investigation of this officer threw suspicion on the prisoner, who lives in a house in the alley running from Franklin street between Governor and Fourteenth streets, in rear of the premises formerly occupied by D. Delerue. Bill Coleman and Moses Bowles are suspected of being connected with the robbery. They are still at large. A private watchman is suddenly sick about 9 o'olock Sunday night, and went home after getting another watchman who stays in that neighborhood to promise to keep a lookout for him during his absence. It is supposed that the house was broken into soon after this time, and was open from then until morning. It is surprising that under the circumstances to James T. Gray and William H. Pal-

more goods were not stolen. Sergeant Hall is still working on the case, and it is probable that this efficient officer will get hold of all the guilty parties.

Sudden Death of Mr. C. H. Baker. Coroner Taylor was called upon yesterday morning to view the body of Mr. Charles H. Baker, who was found dead in his bed at the house of Mr. A. B. Duesberry (with whom he boarded), at No. 24 north Ninth street. Deceased was born in the State of New York, came to Richmond soon after the close of the war, and was employed at Hiltzhimer's stables, and was about fifty years of age. So far as known he went to bed perfectly well on Thursday night. Death was probably caused by apoplexy. In the clothes of deceased were found \$130 in money and a gold watch, which. ner took possession of to pay expenses of burial and to hold the residue subject to the call of authorized parties. Mr. Baker had no relatives or connections here, but friends removed the body to Mr. Laube's undertaking establishment, Broad and First streets, from which the funeral will take place

Hurt by a Cave-In. Yesterday afternoon about half-past 5 o'clock a man named Andrew Smith was excavating at the corner of Sixth and Cary streets, where a culvert is to be laid. He had gotten down about twelve feet, when one side of the earth above him caved in, entirely covering him. Some one near by who saw the ground give away raised an alarm, and efforts were immediately begun to re-lease the unfortunate man from his prison of suffering. In a short time his head was unearthed, and Dr. Smith, who had arrived with the ambulance, administered a stimulant condition and taken in the ambulance to his home, on Hill street between First and St. James. An examination showed that beyond a contusion of the right shoulder and arm, an incised

recommending the payment of bills to the amount of \$608.10 was presented and adopted. The regular monthly statistical report of the Committee on Streets was also read and adopted.

OPENING OF TWENTIETH STREET. Mr. Bradley, chairman of the Committee on Streets, presented a paper, in which he said :

which he said:

"When the opening of Twentieth
street was talked of Mr. Godsey came
to the chairman of your Committee on
Streets and made the following proposition: That if the town would pur-chase the adjoining lot and remove his house hereon, he would make the city a deco-for his lot which is immediately in the line of Twentieth street, on Bainbridge. Upon examination, I found that the los could be purchased for \$165. and the building could be removed and repaired satisfactory to Mr. Godsey for \$115-a total of \$280. Upon consultation with the City Attorney, who had the matter of condemnation in hand, we thought it much cheaper than to allow Mr. Godsey's property to be con-demned, and would be a great saving to the city and entirely satisfactory to Mr.

Godsey: therefore be it Resolved, That the matter be placed in the hands of some committee to attend to same report at the next meeting The report was adopted, and the Committee on Light directed to take the

matter in charge. Mr. Pilson, chairman of the Committee on Light, asked permission to withdraw the report submitted at a fer-mer meeting of the Council recommending that the contract for lighting the streets of the city be awarded to the Baltimore United Oil Company at a cost of 64 cents a light per night.

Mr. Pilson said he made this request with the approval of the other members of the Committee on Light, after hearirg that some other parties desired to make bids for lighting the streets.

The permission asked was granted. Mr. Pilson then read a letter from Mr. George McD. Blake, superintendent of the Schuyler Electric-Light Works in Richmond, offering to furnish the city with eighteen lights, which he claims would light the city well, to burn from eight to dawn every night in the year, at a cost of a little less than \$2,800. A communication was read from Mr. Sowers, superintendent of the Washington Automatic-Light Company, offering to furnish any number of lights. to burn all night every night in the year, at a cost of 61 cents per light, or cents per light if burned only twenty nights in the month. George H. Poindexter, Esq., and Mr. Sowers were pre sent, and the former advocated the claims of this company.

On motion of Mr. Bradley, all applications for lighting the streets were referred to a special committee, with power to award contracts, &c., the cost of the same not to exceed \$3,000 per

THE WATER-WORKS Visit of Inspection Yesterday by

Under the charge of Superintendent Bolling, of the Water-Works, a party composed of the present Water Com-mittee and a number of members of the old and newly-elected Council yesthe old and newly-elected Council yes-terday afternoon visited the Old pump-works, where they found the repairs to the machinery advancing in a satisfac-tory manner. The new water-power and steam pumps were also found in first-rate condition, the buildings of which looked much improved by the new coat of paint they have recently received. The reservoirs and adjacent grounds are in fine order, and reflect redit on their present management. The condition of the water depart-

ment is excellent. Personals and Briefs.
